Star Building Systems

Press Release

Hastco, Inc. employee attends Star Building Systems' Basic Builder School

Star Building Systems recognizes student with certificate of completion of Star's Basic Builder School.

Oklahoma City, OK, October 7, 2011: Shaylon Kuehler of Hastco, Inc., Topeka, KS, attended Star Building Systems' Basic Builder School, held the week of October 3rd through the 6th in Oklahoma City, Oklahoma. In July of 2010, Hastco, Inc. became an authorized builder for Star Building Systems. Star is a leading manufacturer of custom metal buildings with headquarters in Oklahoma City and plants located across the United States. Founded in 1927, Star is celebrating its 84th anniversary this year.

During the 4 day school, students were educated on Star building products, terminology, the construction of a metal building and the premier computer pricing program used by Star Builders. Throughout the week, students were introduced to Star employees, many of whom gave presentations for their particular area of expertise and departments. Each student received a certificate of completion plaque and had their photo taken with Star's President, David Alexander.
